Disc Stakka CD & DVD Manager makes traditional disc management obsolete

That's because the Disc Stakka unit is an automated carousel that gives you a simple and efficient way to manage and protect your disc library, large or small.

Three Reasons to Buy:

BE MORE PRODUCTIVE

Find discs fast. Searching through dozens of pouches or shelves looking for a particular disc can be frustrating and unproductive. With Disc Stakka™ CD & DVD Manager and its bundled OpdiTracker™ software, it takes just a few seconds to locate any file and eject the disc on which it is stored.

BE BETTER PROTECTED

Protect valuable discs against loss or damage. Permanently losing precious software and data because of lost or damaged discs is a thing of the past. The Disc Stakka unit stores all varieties of discs, and helps to protect them from damage that can be caused by improper handling or exposure to dust and UV light.

BE BETTER ORGANIZED

Save space and reduce clutter. Tired of having all your discs strewn across your desk in disorganized piles? The Disc Stakka unit gives you an efficient way of storing all your discs in one place. Disc Stakka CD & DVD Manager keeps your desk clean of clutter.

STORE, PROTECT AND MANAGE YOUR DISCS

Each unit stores and protects up to 100 data CDs, DVDs, music and game discs, and links to your computer via USB for data and power. The Disc Stakka unit is managed using the bundled OpdiTracker software, which provides you with "virtually online" access to your discs and their content. OpdiTracker software allows you to search its database by title, keyword, filename and more to find and eject any disc within seconds. Perfect for businesses, studios and home use, with Disc Stakka you need never waste time searching for a disc again. The Disc Stakka unit means productive disc and content management!

SIMPLE EXPANSION

Your first Disc Stakka unit holds up to 100 discs, and links to your computer via a single USB connection that supplies both power and data.

Built-in connectors allow you to stack units up to five high to create a tower that holds up to 500 discs without needing additional cables or desk space.

Over 100 of these towers can be linked via powered USB hubs to store, manage and protect more than 50,000 discs.

The intuitive OpdiTracker software automatically recognizes new units as they are added to the system, making management of your entire disc library a breeze.
